

ENVIRONMENTAL POLICY

Our company is dedicated to protecting human health, natural resources and the local and global Environment, this dedication reaches further than compliance to the law to encompass the integration of sound environmental practices into our business decisions.

This policy is based on the integration of risk-based, cost effective, management practices into site activities with the aim of continually improving environmental performance.

AIEC SRL is committed to assess the environmental of its activities, products or services, as a basis for its environmental management program and to reduce wherever practicable this impact through the establishment of appropriate objectives and targets.

In particular will strive to achieve the following objectives through continuous improvement of its environmental performance in order to prevent any form of potential pollution:

- Comply with all applicable legal requirements and other requirements to which the company subscribes about of its environmental aspects
- Ensure adequate training and continuous updating for all employees, and they are aware of their individual responsibilities for acting in accordance of this policy
- Practice and promote effective prevention of pollution in accordance with management giving top priority to waste prevention at the source, elimination or reduction wasteful practice and recycling
- Manage the significant environmental aspects
- Reduce the use of natural resources and especially hazardous substances
- Review during special events its environmental policy
- Disclose in a clear and transparent, both inside and outside company, the environmental policy document

This environmental policy provides the basis on which the AIEC srl sets its own targets for improvement and pollution prevention
